PROFESSIONAL SUMMARY

Motivated Junior Full Stack Developer with hands-on experience building responsive web applications using React, Next.js, and Node.js. Skilled in taking projects from concept to deployment on platforms like Vercel and eager to grow in a fast-paced development environment.

TECHNICAL SKILLS * Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

- **Frontend:** React.js, Next.js, Tailwind CSS, Redux, Context API
- **Backend:** Node.js, Express.js, Prisma
- **Database:** MongoDB, Firebase, PostgreSQL
- **Tools:** Git, GitHub, Vercel, Postman, NPM, REST APIs

TECHNICAL PROJECTS

TripBuddy – Travel Planning Application | [Live Demo](#) | [GitHub Link](#)

Description : Developed a social travel platform enabling users to create travel plans, match with compatible travelers, manage profiles, and access premium features using JWT authentication and secure payments..

- Built traveler search, matching, review system, and subscription-based payments, integrating Stripe and delivering a responsive, user-friendly UI
- Implemented secure JWT-based authentication and comprehensive CRUD operations for a dual-role dashboard (Admin/User), allowing users to manage detailed itineraries and travel profiles.

Digital Wallet – FinTech Interface | [Live Demo](#) | [Github Link](#)

Description : Developed a role-based digital wallet application with JWT authentication, secure transactions, and real-time API integration using RTK Query, featuring responsive dashboards for users, agents, and admins.

- Implemented role-based authentication and authorization (User, Agent, Admin) using JWT, with protected routes and persistent login state.
- Built wallet features including send money, deposit, withdraw, and transaction history with filtering, pagination, and real-time updates via RTK Query.

MealMate – Food Delivery Platform | [Live Demo](#) | [Github Link](#)

Description : A Website where users can order or book foods from a restaurant .

- Built a full-featured meal discovery and ordering app with category filtering.
- integrated secure payment gateways SSLCommerz to handle order and bookings .

Soft Skills:

Strong communication, teamwork, and ability to adapt to new technologies quickly.
